NOW THERE IS MUSIC.

The Anti-Poverty Fair Has Got Its License

and Happiness Reigns.

Pretty Irish eyes danced with mirth in

place of anger at the Madison Square Gar-

This was because all difficulties were over

and there was music at the big Anti-Poverty Fair. After trying to block up the too, too active police by legal technicalities, the man-agers of the fair finally went at the matter practically and bought \$150 worth of concert

So much license will last three months.
The fair will continue but two weeks, and
what will be done with the surplus license is

a matter yet to be considered.

Besides the music and the dancing, everything else went on merrily at the fair. The booths did a lively business and there was a great taking of chances on many valuable things which but few people can win.

It'll all be the same way to-night.

MISS MASON FULLY EXONERATED.

The Pifteenth Ward School Trustees Report

in Her Favor.

The School Trustees of the Fifteenth Ward

met in the Twelfth Street School yesterday

and made their long-expected decision in the case of Miss Virginia Mason, the teacher who was accused of impropriety with Robert W. McMaster, the Washington Market poultry

dealer.
Trustees Foote, Hardenberg and Gautier, the sub-committee appointed to investigate the charges, reported in favor of the complete exoneration of Miss Mason and the Board accepted the report.

Miss Mason has not taught in the school this term

ANOTHER VICTORY FOR THE PEOPLE.

The Board of Education yesterday adopted the report of the committee in favor of requesting the Board of Apportionment to transfer \$9,200 from an unexpended appropriation for the purpose of carrying out the provisions of the law providing for free lectures for the working men and women of the city during the winter. The Committee on Evening Schools was instructed to report a plan for the lectures.

The suggestion of this free and instructive amusement for the working people originated with THE EVENING WORLD, and the law was enacted through its efforts. We are, therefore, gratified that the proposed lectures receive the approbation and support of President Simmons and all but two members of the Board of Education, whose objections and criticisms, while doubtless honest, were unsound. Commissioner Corn insisted that all the school money should be used for educating children, instead of diverting any portion of it for the instruction and improvement of grown people. But he was reminded that the same argument would stop the evening schools, which are attended by many

We congratulate the working people of the city on the success of THE EVENING WORLD's efforts to provide for them a free and valuable amusement during the winter evenings,

#### DOUBLE-BARRELLED BIGAMY.

Mr. JAMES E. SMITH, of this city, was called to the Fifty-seventh Street Police Court yesterday to answer a charge of bigamy in baving married MARY MUELLER while, as is alleged, he had a former wife who was at the time and is still alive. JAMES does not deny the marriage. Indeed, he admits three as instead of two and makes his a mitted double-barrelled bigamy the ground

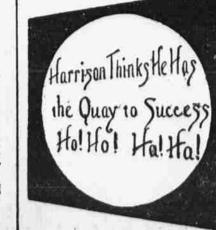

The plea is an ingenious one. James in sists that his reputed first wife, who was married to him by Father FLOOD at St. John's Church in 1882, is not his wife at all, for this, if for no other reason : When he married her, as he says, he already had a living wife to whom he had been wedded ever since 1862, and who died less than three months ago. Hence the marriage by Father Flood in 1882 was no legal marriage at all, and as the original, bona fide Mrs. Smith of 1862 was defunct before JAMES MARY MUELLER, a little over a month ago, he was at the latter period a widower and Many is the genuine present

Exactly how James calculates to get over the marriage of 1882 does not appear. However, he pretends not to remember that any such ceremony took place. At all events it will be a pity if JAMES manages to slip through the apparently open network of the

### THE STRAW-BAIL EVIL

It is well known that our courts are in fested with a set of pestilent rascals known as "straw-bail" men. These persons are at all times ready to go on bail bonds for a fee. Some of them have in some manner a title to a little property, which, however, is always secure against recovery for forfeited bail, while others are absolutely men of "straw." Yet they are willing to risk presecution for perjury for the sake of

> THE EVENING WORLD

making a few dollars. The practice is a most | POLITICS IN NEW JERSEY. abominable one and is a great detriment to justice.

Yesterday an old man over sixty-four years of age offered himself as bondsman for a dishonest collector, charged with robbing his employer of \$1,500. As he was about to take the oath Recorder SMYTH stopped him and elicited the fact that a mortgage on a house he claimed to own free from debt had been foreclosed and judgment filed against him. The Recorder saved him from punishment for perjury.

These professional bondsmen are known to the court officers, and in no instance ought their bail to be accepted by a judge.

How much the people of New York have benefited by the successful efforts of Gov. HILL to force a reorganization of the New Aqueduct Board is illustrated by the fact that BROWN, HOWARD & Co., the Republican branch of Aqueduct contractors, are said to have begun suit against the city for \$1,400,000 'damages" and money retained. The leakages having stopped, the "stand and deliver" policy is resorted to.

Judge BABCLAY, of the Circuit Court St. Louis, has refused naturalization papers to a Chinaman. The Judge holds that all applicants for citizenship must be "free white persons, except those of African nativity or descent," and that the right of citizenship cannot be conferred upon Indians of our own country nor upon "red or yellow or brown skinned people of other countries." Where does this leave Cubans?

It is simply scandalous that Congress should allow a day's needless delay in the matter of a pension to Gen. SHERIDAN'S widow. Mrs. Sheridan is at present in receipt of less than \$1,000 a year income. It is disgraceful to the nation that the hero's widow should be left a single hour in anxiety on the subject.

The Anti-Poverty Fair has got its license and now Madison Square is merry with music and dancing. That is proper. Anti-Poverty certainly has a right to enjoy itself.

GOOD THINGS IN MARKET.

#### M. Gigure and Mr. Gardner.

In your issue of Aug. 29 an article appeared relative to M. Edward Gigure, the French warbler, leaving Mr. E. M. Gardner's "Zo Zo" company and taking with him a wig and \$20 belonging to Mr. Gardner, and also stated that M. Gigure was under contract to go with the 'Zo Zo" company this season. Now in April, 1885. I contracted with M. Gigure for five years' management, and it was by my written consent that M. Gigure joined Mr. Gardner's company in 1886 for the season of 1886-87. Negotiations were pending with Mr. Gardner and Thatcher, Primrose & West as to who should have Gigure during the season of 1887-88. As there was a contract between Messrs. Gardner and Gigure con-taining the regular two weeks' notice clause, M. Gigure gave and Mr. Gardner took the notice given in writing which broke the ex-isting contract.

isting contract.

As M. Gigure is at Jacobs's Thalia Theatre this week with the "Kindergarden" company Mr. Gardner can make any demands on him he desires. It is an open question with M. Gigure whether he institutes suit against Mr. Gardner for slander or not, and were it not for the undersirable notoriety he would acquire thereby he would acquire thereby he would secret. would acquire thereby he would certainly do so under my advice. In justice to M. Gigure by giving publication to the above you will oblige yours truly, M. J. Jacoss. New York, Sept. 19.

A Straw. to Publisher Rvening World:

HUDSON COUNTY'S PORTION IS BOILING MERRILY IN THE POT.

With Ten Assemblymen to Choose, the County May Affect a United States Senatorial Election - Democratic Prophesied-High License or Local Op-

The men of Jersey City, Hoboken and the suburban sections of Hudson County who ove politics are just beginning to realize that there is such a thing as a fall campaign under way. The result of their wakening is that the political pot on the other side of the river is beginning to boil and the men who want to fill various offices are up and doing. One Congressman and ten Assemblymen are to be elected in Hudson County.

In the Congressional matter there is little or no excitement. Mr. McAdoo will be returned. His only opponent in the convention which is to be held in Hoboken next Saturday will be ex-Assemblyman Edward F. McDonald, of Harrison, who will be far in the rear when the delegates' votes are the rear when the delegates' votes are counted. As yet the Republican party cradles no aspirant for its nomination. It is actually a drug on the market. Col. O.W. Fuller, State Superintendent of Schools, is the only available nomines. The honor is an empty one, as the Republicans concede a majority of over 8,000 for McAdoo.

The contests in the Assembly districts are warmer. There are two great issues involved

varmer. There are two great issues involved the election of United States Senator John

warmer. There are two great issues involved
—the election of United States Senator John
R. McPherson's successor and the question
of high license or no high license.
If the Legislature is Democratic Senator
McPherson will be returned, or ex-Gov,
Abbett will be his successor. Abbett's fight
of 1886 will be remembered. It was without
a parallel, but may be repeated.
William Walter Phelps, ex-Congressman
George A. Halsey, of Newark, and Gen.
William Joyce Sewell are the Republicans
who covet the Senatorial seat.
The high-license issue is almost as weighty
as the other. It has been the boast of the
liquor dealers that the High-License law
would be repealed by a Democratic Legislature this winter. The Republicans, on the
other hand, declare that if they feel the influence of the liquor men against them they fluence of the liquor men against them they will circulate petitions for a local option elec-tion the day after the election, and bring every tangible element into the fight to carry the election and establish prohibition in Hudson County, with its thousand and a half

of saloons.

Notwithstanding these threats, the Senatorial issue and all, the Republican leaders admit that instead of five of the county's ten Assemblymen, the party will be represented this year by but three, or possibly two. The Democrats will regain the First and Sixth districts and possibly the Ninth.

Democrats will regain the First and Sixth districts and possibly the Ninth.

In the First district, Assemblyman Gallagher wants a renomination from the Republicans. Ex-Judge R. B. Seymour wants it, too. but won't get it. President O'Neill, of the Board of Aldermen, will be the Democratic nominee, and will undoubtedly be elected. elected.

In the Second District, the "Horseshoe,"
Assemblyman James N. Norton will be returned by the Democrats. Patrick Sheeran, who always looms up with the Senatorial is-

sue, will run independently.

Col. Samuel D. Dickinson, the Speaker of the last House, will be renommated in his little Republican kingdom, the Third District. Alderman Donnelly, backed by the

trict. Alderman Donnelly, backed by the liquor men, who hate the military Speaker, will run against him. Dickinson's re-election is conceded, although he may run a little behind his ticket.

There is a warm fight for the nomination in the Fourth. Col. Heppenheimer, the present Assemblyman; Alderman Elliott and James Esterbrook all want recognition by the Democrats, and ex-Alderman Dzinba and W. L. Van Derzee look to the Republicans for the honor.

and W. L. Van Derzee look to the Republi-cans for the honor.

In the Firth District Assemblyman Brown will be nominated by the Republicans, with Assemblyman Pearson on the Democratic ticket. Brown will probably win.

Corporation Attorney Robert S. Hudspath will be nominated by the Sixth District Democrats and elected. John W. Heck will try to uphoid the Republican standard.

Assemblyman Represe will be returned by

try to uphold the Republican standard.

Assemblyman Feeney wilt be returned by
the Democrats of the ever Democratic
Seventh. James Moran will run independently. In the Eighth the Democrats will
return Assemblyman Farrell.

There will be a warm fight in the Ninth
between Letts, the Republican Assemblyman,
and Michael Coyle, the leader of Hoboken's
Democrats. The issue is a matter of doubt.

Democrats. The issue is a matter of doubt. In the Tenth District, North Hudson, Assemblyman Frank Short will be returned by

the Democrats. John Usher will be the Republican and Labor nominee.

The outcome of all these little battles will be one big battle, and the result in each district may affect the political complexion of the next United United States Senate. There is certain to be an interesting chapter in the history of the liquor question evoived. There will either be a repeal of the High License law or a local option election in Hudson County.

Voiers are beginning to realize these facts and the boiling of the aforesaid political pot may be heard with growing distinctness.

figger, Mandy. Wait 'll th' man comes an I'll ax th' price.

veritable dungeons without showing some The Mouffien Demonstrated the Necessity In the life of a coal stoker there are few pleasures, and the greatest one is to get a breath of air not contaminated with nauseous There is an inclosure in the Central Park

'Zoo" which has a paling around it some There is no greater hardship than to be penned up in a dirty, poorly ventilated cavern, lighted only by the glare from whitehot furnaces. The life of a coal miner is preferable to this, for he has the advantage at least of a moderate temperature.

The reporter started on his tour of explora-One day this summer there were two sheep inside it and two doves outside. The sheep were not common, every-day mutton. They were "Sardinian Moufflon," and a chop from

The reporter started on his tour of explora-tion not apprehending much difficulty, but only one out of an even half dozen attempts to see a stoke-hole was successful.

The second engineer of the Furnessia, of the Anchor line, Mr. Wilson, a very gentle-manly person, consented to show the way to the furnaces.

Dozens of men were about the decks, paint-ing the weedwest and

The pair of doves were discussing the mating the woodwork, and in the engine-room assistant engineers were "tidying" things up preparatory to salling day. An unpleasant odor of oil emanated from the place and everything in and about it seemed to have ter of the high fence in their own soft brogue. Pat had declared that it was neces-sary to keep the beast in his place and Bridget had expressed her conviction that it didn't need to be near so high.

At this moment the monfilon, who had been besmeared with the bad-smelling lubribeen rubbing his nose against the bars, cir-culated to the middle of his territory, and after some gyrations which looked as if he

Descending a long flight of iron stairs, the visitor and guide stood in the upper part of the engine-room. Adjoining this was the dry air refrigerating apparatus and there was an air of uncleanliness about the whole place. Passing down another long stairway brought were in distress, relieved nus feeling by gathering his feet together and springing about three feet straight up in the air, like one of Buffalo Bill's "bucking "mustangs.
"Look at him skip!" shouted Bridget, giving Pat a dig in the ribs that caused him to give a moufflon-like start himself.
"Now, do you see why thim sticks is that long?" said Pat. "Sure he's only a bit of a baby, and whin he hev his growth he'll lape tin feet wid aise." the reporter into the engine-room proper, and lighting a steamer lamp, Mr. Wilson led the way through a small opening into the stoke-hole. On all sides were banks of bituminous coal, ready to be transferred into the furnaces. baby, and with ne nev his growth he if take tin feet wid aise."

They tarried for half an hour in admiring study of the Sardinian moufflon, and went off with lingering glances at him in hopes he

the furnaces.

There were fifty-four fires to be attended to, and nine men at a time were detailed to take care of them. A more dismal place could not be imagined, yet the unfortunate fellows who worked there paid but little heed to their surroundings, and contented themselves when off duty with smoking and drinking brandy.

drinking brandy.

"While they are at work they have a hard time of it," said Mr. Wilson, "but after a time they become accustomed to the work. You see, they work four hours and stay off eight hours. The men put in most of this time sleening.

eight hours. The men put in most of this time sleeping.

"As a rule, stokers are big, strapping fellows, who have lost all hope of bettering their condition. A strong, healthy man lives in the stoke-hole only about two years before he is completely incapacitated for any other work. Occasionally men work a few years longer than that, but it's only a question of time with any of them. Living in a temperature of 120 to 130 degrees all the time must have some effect on any man, no matter how have some effect on any man, no matter how robust he may be.
"Atter all, though, these Atlantic liner

After all, though, these Atlantic liner stokers have a comparatively easy time. On a steamer in the Southern seas the temperature is often 170 or 180 degrees."

The air was laden with coal dust and oil, and when the men emerged from the hole their clothes were completely covered with a mixture of oil and coal dust. Truly the stoke-hole is a terrible place.

Concert of the Aschenbroedel. The monster concert of the Aschenbroedel in aid of its relief fund will be held at Washington Park to-morrow (Friday) evening, Sept. 21. Theodore Thomas's grand orchestra will play, and the soloists will be: Miss Emma Juch, soprano; Theodore Toech, tenor, Gaussa Brain Raphael Joseffy, planist. capuaci Joseffy, planist. Feilows, Howard Ellis and the other invited speakers, and everything is now in readiness. The music and firework accessories will be elaborate.

and frework accessories will be elaborate.

A Democratic ratification meeting was held at the hall 47 West Sixteenth street last night. Stirring speeches were made by Joseph C. Fredericks. Henry Charles, John Hassting, Edward Holton and Capt. Cullom, and an organization was perfected, with the following officers: Henry Charles, President; John Esgan, Vice-President; John Flanagan, Secretary, and Patrick Kelly, Treasurer.

At Lincoln Hall, corner of Allen and Houston streets, has been organized the Young Men's Democratic Club of the Tenth Assembly Distriction of Chicles: Jaques Ernest, President; Fulius Steager, Vice-President; Herm. Deyerberg, Teasurer; Charles Schönberg, Secretary; Gus Schulz, Sergeant-at-Arms. The next meeting will be held at the hall on Monday, Sept. 23, and Judge Alfred Steckler, Coroner Levy, Geo. F. Koesch and Julius Harburger will address the meeting. The club has Harburger will address the meeting. The club has

The Cleveland and Thurman Retail Dry Goods Club, of New York, has enrolled up to the present 885 members and its officers are positive of 1,000 more members before election. They invite all dry goods men to attend their meeting next Monday evening at Cosmopolitan Hall, 31 Third avenue. Good speakers are to address the meeting. Those not able to attend are seed to send their names and addresses to Frank Holahan, 121 East Thirty-first street.

Thirty-first street.

The Cleveland and Thurman County Democracy Club of the Thirteenth Assembly District was held last evening at 216 Eighth avenue, Cept. John Kenny in the chair. Arrangements were made for the grand parade of the Hans S. Bestue Battery to be held this evening. The members of the battery, in sailor uniforms, will march 200 strong through the Thirteenth Assembly District to Cooper Union, where they will join the great Democratic mass-meeting.

MONELL'S TEETHING CORDIAL allays irritation from ething. Everybody can buy it. Price 25 cents.

IS MARRIAGE A FAILURE?

It's the Most Interesting Query Propounded for Years. To the Editor of The Evening World :

Girls like to get married as well as young men. They can easily live on \$8 or \$10 a week. Two rooms are sufficient. But to promote marriage to its proper degree the Legislature must take hold of it and simply proclaim that no unmarried man can vote proclaim that he unmarried man can vote except he be a widower. It a man is much older than his wife he doesn't want her to dress well. I have seen one who tore his wife's dress to pieces because she wanted to look fine. Such men it is best to get rid of. But I would rather go to Salt Lake than be an old maid. If the decrease of marriage lasts too long there will be more girls eloping with married men and morals will go to the wind. Girls are natural.

to the wind. Girls are natural; they are not born to be nuns. They must protect their health, and be mothers while they are young and have attention in old age.

Mrs. S. Sager Wiener.

122 Livingston street, Brooklyn, Sept. 16.

A Question of Electricity.

To the Editor of The Evening World.

It is amusing to read the sentimental nonsense of your correspondents, whose monotonous refrain reveals the conviction that there is "something rotten in the State of Denmark," the remedy suggested being, not change and readjustment, but a coat of senti-mental paint to hide the rottenness. With ethics reduced to an exact science, the soluethics reduced to an exact science, the solution of the present question is found in its scientific bearings, mainly in the laws governing magnetism and electricity. We run electric motors on our avenues and are proud of our scientific progress, but that most wonderful of all electric motors, man, is treated with an ignorance perfectly appalling. W.

To the Editor of The Evening World: Marriage is the most important factor in the economy of human life, and its success or failure cannot be decided by individual experience nor by local conditions. National customs and beliefs make marriage what it is. Whether it be a failure depends upon what is expected of it and what attained.

NERO.

MILLINERY NOVELTIES AT ROTHSCHILD'S. This is the Fall Opening Day at the Bis Store.

It is not strange that such a varied and elegant assortment of bonnet and millinery goods as are displayed in the big show-windows and upon the ounters of J. Rothschild's establishment, 56 West Fourteenth street, at its fall opening to-day, should have attracted the attention of all the shoppers in hat busy thoroughfare.
All day long the store was crowded and the side-

All day long the store was crowded and the side-walks througed. As business is booming this year, the preparations made for the fall and winter trade have been greater than ever before. There is something to suit the tasts and the purse of every customer in the way of millinery goods, in which the firm deals exclusively, and as a general rule prices are much lower than in the past.

Not that there is any corresponding depreciation in the quality; on the contrary, it is up to the nigh standard which has siways been observed, but the firm believes in purchasing the best goods at the lowest price and giving them to their customers on the same basis.

A large portion of the stock consists of imported goois, but the majority is of the firm's own manufacture. The close bonnets and large hats are somewhat varied in style and shape since last year, but the novelty of the season will be the soft, felicrowned embroidered turbans, which will be the popular thing for street wear. There are many styles, and the display in this line is a most attractive one. active one.

A feature of the season in regard to the trim

ming of hats will be the return to estrich plumes. As many as three or four will be worn on the hat. This does not increase the price, for now three plumes can be bought for the price of one a few years ago, when they were so popular. The lady who cannot find what she wants here must be difficult indeed to please.

# A REMARKABLE CASE

The Well-Known Carlsbad Sprudel Salt, Procured from the Natural Springs of Carlsbad, Better Than Any of the So-Called Blood-Purifying Medicines.

The cashier of M. Gurgenheim's Sone, 96 and 98 Franklin street, one of the largest import houses in the United States, writes under date of June 30, 1886, as

llows: \*\* For years I have suffered from abscesses which always formed on the back of my neck, and had to be out from time to time to obtain relief. I used all sorts of blood purifiers, but without avail. The absoralways reappear. I suffered very much pain until my physician advised me to use the genuine imported Carla-bed Sprudel Sait (powder form). I used this for about four weeks, and since that time I have been entirely free from the disease. My complexion cleared, and I have enjoyed good health ever since, I cannot speak too highly of this really valuable remedy, and have recommended it to all my friends, who also speak of its wonderful effects as a laxative. Yours very respectfully,

"I. MEYERS."

Dr. A. L. A. Toboldt, in a paper read before the Ninth International Medical Congress, speaks of the genum-mported Carlsbad Sprudel Salt (powder form) as fol-

constipation, diseases of the stomach, liver and kid neys, diabetes, gout, rheumatism, &c., has been such that I may truly say that no remedy which I have ever sed has given me so much pleasure and profit as this particular one.

Dr. Lustig, in his book on the action of Carlab

Water, says: rheumttism, we know of no more efficacious, rational or simpler remedy than the Carlabad Mineral Ways and the Carlabad Sprudel Salt. A person can at any time of the year, without the least interruption to business, and with very little cost, not only remove any of the above aliments but also prevent their further development by the use of this remedy."

The genuine Carishad Sprudel Salt Powder is put ur in round bottles. Each bottle comes in a paper car-ton, and has the seal of the city of Carisbad and the signature of Esner & Mendelson Co., Sole Agents, around the neck of every bottle. All others are worth-less imitations. Pamoblets mailed free upon applica-tion. Kisper & Mendelson Co., 6 Barclay street, New
